WHY CHOOSE TOMTOM PRO 827X SERIES?

EMPOWER DRIVERS TO BE MORE ACCOUNTABLE

Enhanced workflows tailored to your business, as well as consistent data logging to help comply with legislation. With real-time driver behavior feedback for more efficient and safer driving.

REDUCE COSTS, IMPROVE PRODUCTIVITY

Improving your workflow processes helps improve productivity and reliability of data. Better driving enables you to reduce fuel costs and improve the safety of your drivers on the road. Special Apps to help comply with legislation ensure you have the peace of mind that you meet your legal obligations.

IMPROVE CUSTOMER SERVICE

Collecting more accurate data from the field and connecting it into back office systems help you provide a higher level of service to customers, as well as a better visibility of information to keep them informed.
